

History & Legends... Greece, Turkey & the Islands

Al Eicher traveled to over 50 locations in these countries visiting sites of the early civilizations. He also traveled to the islands of Mykonos, Crete, Patmos, Petra and Santorini. This lecture and visual presentation captures spectacular views of the ancient ruins, snow capped mountains and stories of

Greek mythology. Sites visited include Athens, Corinth, Ephesus, Patmos, Rhodes, Lindos, Knossos, Sounion, Thira, Oia, Mycenae, Mars Hill, Kalambaka, Kusadasi, Delphi, Olympia, St. John's Cave, St. Andrew's by the Sea and more.

The most incredible panoramic views were captured at Meteora where thirteen

monasteries were built in the 14th and 15th centuries. Many of the monasteries are located on the high pinnacles of the Pindos mountain range. Al shot 4 hours of documentary style video and over 800 digital photos. The presentation has been edited into an 80 minute lecture giving the audience a front row seat, including the sights and sounds of cruising to the islands and climbing to the Acropolis sites of many old cities. Experience the visual history and legends of Greece and Turkey. Q & A follows! Call 248-333-2010 for more information about this exciting lecture and visual presentation.
